January 2007

Abstract

This document contains the requirements for the system to be built by the participants of the Plat_Forms 2007 contest. The system is called PbT (People by Temperament). It is to be written within 30 hours by a team of three people. For further details about the contest, please see www.plat-forms.org.

Contents

1	Introduction	4
1.1	Theme/purpose of the PbT system	4
1.2	Requirements priorities and notation	4
2	Functional requirements: Use Cases	5
2.1	User actions overview	5
2.1.1	Main scenario	5
2.1.2	Exceptions and variants	5
2.1.3	Notes	5
2.2	User registers	6
2.2.1	Main scenario	6
2.2.2	Exceptions and variants	6
2.2.3	Notes	6
2.3	Member takes the Temperament Test	7
2.3.1	Main scenario	7
2.3.2	Exceptions and variants	7
2.3.3	TTT, KTS, MBTI, E/I, S/N, T/F, J/P, type, temperament	7
2.4	Member works with Search For Members	8
2.4.1	Main scenario	8
2.4.2	Notes	9
2.5	Member works with Member List	10
2.5.1	Main scenario	10
2.5.2	Exceptions and variants	10
2.5.3	Notes on the graphical plot	10
2.5.4	Other notes	11
2.6	Member works with Status Page	12
2.6.1	Main scenario	12
2.6.2	Exceptions and variants	12
2.6.3	Notes	12
3	Functional requirements: Web Service interface	13
3.1	General information	13
3.2	complexType Memberinfo	13
3.3	operation clearDatabase	14
3.4	operations submitMemberinfo, getMemberinfo	14
3.5	operations login, logout	14
3.6	operation takeTtt	14
